Glass Beads

1. Identification of the substance / Preparation and Company:

- 1.1 Identification of the substance or preparation:
Commercial product name: Glass Beads
- 1.2 Relevant identified uses of the substance or mixture and uses advised against
Relevant identified uses: Mineral blasting abrasive for industrial use
- 1.3 Details of the supplier of the safety data sheet
Manufacturer/Supplier: ERNST HINRICHS Dental GmbH
Street / mailbox: Borsigstr. 1
Country code. / postal code / city: D - 38644 Goslar
Phone: 0 53 21 / 5 06 24
Fax: 0 53 21 / 5 08 81
E-mail / Website: info@hinrichs-dental.de / www.hinrichs-dental.de
Further information obtainable from: ERNST HINRICHS Dental GmbH
- 1.4 Emergency telephone number
ERNST HINRICHS Dental GmbH: +49 (0) 53 21 / 5 06 24 - 25 (Mon-Fri. 8 a.m. – 4 p.m.)

2. Hazards Identification:

- 2.1 Classification: Not applicable.
- 2.2 Label elements: Does not require labelling under the CLP Regulation (EC) No. 1272/2008. But please take note of this product information. No risk of silicosis during application.
- Safety instructions: Possible dust exposure due to fine dust particles.
- 2.3 Other hazards: Not known.

3. Composition / Information on Ingredients:

- 3.1 Ingredients (mean value)
- | | |
|--|--------------|
| Silicon dioxide (SiO ₂): | 70,00-75,00% |
| Sodium dioxide (Na ₂ O): | 12,00-15,00% |
| Calcium oxide (CaO): | 7,00-12,00% |
| Magnesium oxide (MgO): | max. 5,00% |
| Aluminium oxide (Al ₂ O ₃): | max. 2,50% |
| Potassium dioxide (K ₂ O): | max. 1,50% |

Chemical characterisation	EINECS	CAS No.	(1) REACH Registration No. (2) CLP Notification No.	Classification according to CLP Regulation (EC) No. 1272/ 2008	
				Hazard classes / Hazard categories	Hazard statements
Glass	266-046-0	65997-17-3	Not subject to REACH-Regulation	-/-	-/-

Hazardous substances: No dangerous ingredients.
Substances with prescribed EC exposure values: Does not contain substances with EC exposure limits.

4. First aid measures:

- Please also take note of sections 8 and 16 of this product information.
- 4.1 General information: Consult a doctor in case of health disorders.
- After inhalation: Provide the affected person with fresh air. Consult a doctor in case of irritation of the respiratory tract.
- After eye contact: Remove contact lenses and rinse the eyes with open eyelids for 10 minutes under running water. If necessary, consult an ophthalmologist.
- After skin contact: Wash with water and rinse.

According to the REACH-Regulation (EC) No. 1907/2006
 Date of issue: 01.08.2018

Glass Beads

- | | |
|---|---|
| After swallowing: | Rinse mouth and drink plenty of water. Do not induce vomiting. If you feel unwell, seek medical advice. |
| 4.2 Most important symptoms and effects, both acute and delayed: | Not known. |
| 4.3 Indication of any immediate medical attention and special treatment needed: | Treat systematically. |

5. Fire Fighting measures:

- | | |
|---|---|
| 5.1 Suitable extinguishing agents: | Product does not burn. Match extinguishing measures to ambient situation. |
| Extinguishing media that must not be used: | Not known. |
| 5.2 Special hazards by the substance or the preparation itself, its combustion products or resulting gases: | Not known. |
| 5.3 Special protective equipment for fire-fighting: | Match the firefighting measures to the environmental conditions. |
| 5.4 Additional information: | Not known. |

6. Accidental release measures:

- | | |
|----------------------------------|---|
| 6.1 Personal precautions: | Avoid dust formation. Round grains on the floor increases risk of slipping. |
| 6.2 Environmental precautions: | Not known. |
| 6.3 Methods for cleaning: | Pick up mechanically and dispose of properly. |
| 6.4 Reference to other sections: | Refer to protective measures in section 7 and 8. |
| Additional information: | Not known. |

7. Handling and Storage:

- | | |
|--|---|
| 7.1 Precautions for safe handling | For safety reasons, it is recommended to use a protective sieve during filling. |
| Information for safe handling: | Avoid dust formation. |
| Information about fire- and explosion protection: | No special fire protection measures are necessary. |
| Additional information: | None known. |
| 7.2 Conditions for safe storage, including any incompatibilities | |
| Information on storage conditions: | Always store product in dry conditions. |
| Requirements for storage rooms and containers: | No special requirements needed. |
| Storage class VCI: | LGK 13 (non-combustible solids) |
| 7.3 Specific uses: | Glass Beads are used for the manufacture of or use as blasting or grinding abrasives. |

8. Exposure controls / Personal protection:

- | | |
|--|---|
| 8.1 Control parameters | |
| Occupational exposure limit values in the workplace and/ or biological limit values | |
| Occupational Exposure Limits (OEL) in Germany for dusts | |
| Inhalable dust: | 10 mg/m ³ |
| Respirable dust: | 1,25 mg/m ³ |
| Each with excess factor 2 according to TRGS 900 (German technical regulations for hazardous substances). | |
| Community exposure limits: | Country specific. Please inquire in individual cases. |

Glass Beads

8.2 Limitation and monitoring of exposure

Appropriate engineering controls:

Technical measures and the application of suitable work processes have priority over the use of personal protective equipment. Provide adequate ventilation. This can be achieved by local suction or general air extraction.

Personal protective equipment:

Glass Beads are not a hazardous substance, thus only the general dust limit value applies. Suitable assessment methods to verify the effectiveness of the protective measures taken include metrological and non-metrological determination methods as described in the Technical Rules for Hazardous Substances (TRGS) 402 and 85 EN 14042 "Workplace areas, Guidelines for the implementation and application of processes for assessment of exposure to chemical and biological agents". The use of personal protective equipment is dependent on the concentrations and quantity of hazardous substances in their execution in specific workplaces.

Respiratory protection:

Normally, no personal respiratory protective equipment is necessary. In case of insufficient ventilation or exceeded workplace limits, a protective breathing mask should be worn (FFP filtering half mask depending on the existing concentration).

Hand protection:

Gloves.

Material of gloves:

Leather.

Eye protection:

Tight-sealing protective eye wear (dust-protection goggles) in accordance with EN 166:2001.

Body protection:

With normal use, no body protection by half or full-body coverall and boots is required.

Industrial hygiene measures:

Minimum standards for protective measures when handling working materials are listed in TRGS 500. Do not eat, drink, smoke or take drugs while using this product. Avoid contact with skin, eyes and clothing. Remove soiled or soaked clothing immediately. Wash hands before breaks and at end of work. Protect skin by using skin creams.

Environmental exposure controls:

See section 6 and 7; no further action is required.

9. Physical and chemical properties:

9.1 General information:

Form:

round

Physical state:

solid

Colour:

white-transparent

Odour:

odourless

Safety data:

Explosive properties:

The product itself is not explosive, however, the formation of explosive dust-air mixtures are possible.

Lower explosive limit:

None known.

Upper explosive limit:

None known.

Vapour pressure:

Not relevant.

Density:

Approx. 2,5 g/cm³

Expiry time:

Not relevant.

Solubility in water:

In-soluble in water.

pH value:

Not applicable.

Boiling point:

Not applicable.

Flashpoint:

Not determined, as the product is not flammable.

Melting point:

Approx. 730°C

Ignition temperature:

Not determined, as the product is not flammable.

Printing date: 09.10.2018

Glass Beads

The information on explosion limits refers to Glass Beads. Please refer to the technical data sheet for other physical and chemical data.

9.2 Other information: None.

10. Stability and Reactivity:

10.1 Reactivity: Glass Beads are non-reactive and do not change with proper handling and storage.
10.2 Chemical stability: Glass Beads are chemically stable and do not change with proper handling and storage.
10.3 Possibility of hazardous reactions: No hazardous reactions known.
10.4 Conditions to avoid: No decomposition if used according to specifications.
10.5 Incompatible materials: No hazardous reactions known.
10.6 Hazardous decomposition products: No known hazardous decomposition products.

11. Toxicological Information:

11.1 Information on toxicological effects: According to current IFA report the product contains no silicosis-including, toxic and carcinogenic components. The indications given in section 8 of this product information must be observed.
Acute toxicity: No data on the product available.
Irritation: No data on the product available.
Corrosivity: No data on the product available.
Sensitisation: No data on the product available.
Repeated dose toxicity: No known toxicity of Glass Beads.
CMR effects (carcinogenic, mutagenic and toxic to reproduction): No carcinogenic effect according to IFA report.
Summarised evaluation of the CMR properties: No known CMR properties.
Practical experience (relevant for classification and other observations): No data on the product available.
Carcinogenicity: No known carcinogenicity of Glass Beads.
Mutagenicity: No data on the product available.
Reproductive toxicity: No data on the product available.
Other information: Not known.

12. Ecological Information:

12.1 Toxicity: No known effects.
Ecotoxicity: For Glass Beads no environmental problems are to be expected when handled and used properly.
Fish toxicity: Harmful effects for aquatic organisms are not expected.
Aquatic invertebrates: Harmful effects for aquatic organisms are not expected.
Water plants: Harmful effects for aquatic organisms are not expected.
12.2 Persistence and degradability: Based on current experience, this product is inert.
12.3 Bioaccumulation potential: No data available. Accumulation in biological materials is rather unlikely.
12.4 Mobility in soil: Potential not known.
12.5 Results of PBT and vPvB assessment: Not relevant. The substances in this product do not meet the criteria for classification as PBT or vPvB.
12.6 Other harmful effects: Not known.

13. Disposal Considerations:

13.1 Waste treatment methods: Product: Glass Beads. If recycling is not possible, waste must be disposed of in compliance with national and local regulations. Confirm the exact waste code with the disposer.
